

Improve product quality; optimize processing to take advantage of seasonal product availability

Temperature Control

Atmosphere Application

Service & Systems Support

“Our cryogenic gases and systems provided our customer the ability to **expand** their retail business from a seasonal one, to a year-round operation. They’re now able to process enough seafood April through October to have **inventory all year.**”

— **Phil Wortman**
Senior Sales Engineer

Results

Improved product quality

Increased shelf life

Increased inventory and price stability

Higher production capacity

Better profit margins

Opportunity:

Our customer wanted to grow their business beyond seasonality and create a year-round market for their seafood

Challenges:

Increasing volume, while preserving delicate, high-value protein with limited availability/shelf life

Praxair Approach:

ColdFront™ value engineered straight tunnel using N₂ to replace our customer’s existing batch tray process using a mechanical freezer

Stay cool by optimizing your process with Praxair. Be confident that you’re getting the best product quality, shelf life and profit margins possible. Contact us for a free process audit at 1-800-PRAXAIR or visit us at praxairfood.com

Praxair Technology
ColdFront™ straight tunnel freezer;
custom-built to fit available space.

Stay cool by optimizing your process with Praxair.

Be certain that you’re getting the best product quality, shelf life and profit margins possible. Contact us for a free process audit at **1-800-PRAXAIR**

With the ColdFront™ straight tunnel freezer, you get high volume throughput in a small footprint, which increases production while conserving valuable floor space in your operations area.

- Increase production capacity
- Improve product quality
- Cryogenic N₂ or CO₂ cooling options
- Praxair Food Lab support for optimal performance
- Safety audit
- Highest quality cryogenic technology
